

How to install Softbox with Quick Frame and Diffuser

Standard Packing

- Softbox 1EA
- Quick Frame 1EA
- Steel Rod 4EA
- Diffuser 1EA
- Bag for above 1EA

1. Put the Softbox and Quick Frame as the picture.

2. Find the steel rod in the each corner of the Softbox.

3. Insert the steel rod into the each corner of the Quick Frame as the picture.

※ the rod will be tilted outside about 110° to keep the shape of Softbox.

4. Place the Softbox as the picture.

5. Hold the Softbox as the picture.

6. Zip up the Softbox.

7. Attach the Softbox to the LED Mat by magnets.
❖ The zipper should be faced down.

8. Fold and fix the each ends of the Softbox with velcros as above picture.

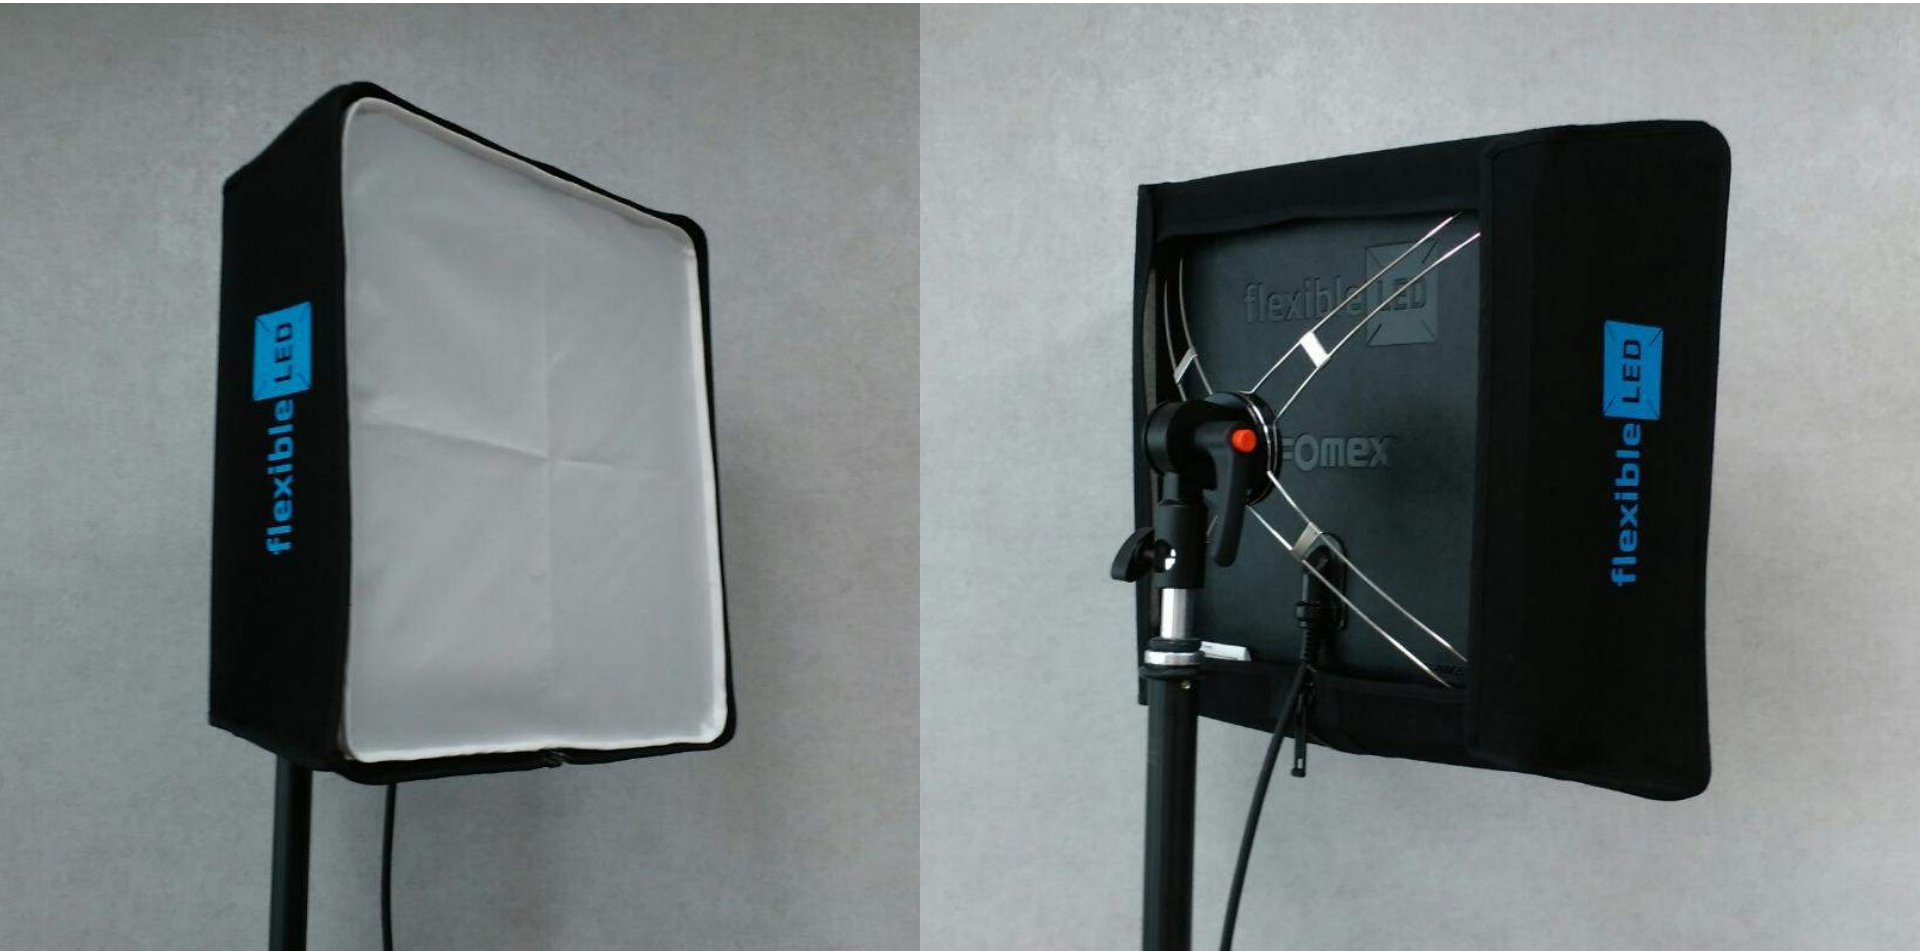

※ It prevents light leaks backward.

9. Attach the Diffuser on the Softbox.

10. It softens the light.

Thank you.
