Tracking Width: 95 cm / 37.4 "
Transit Width: 86 cm / 33.8 "
Wheel Diameter: 12.5 cm / 5 "
Steering Ring Diameter: 53.4 cm / 20.8 "
Wheel Lock: Yes
Trim Weights: 3.5 kg / 7.5 lbs
Ground Clearance: 1.9 cm / 0.75 "
Colour: Black

Pro-Ped Pedestal

The Pro-Ped lightweight pedestal can be used for both studio and OB applications. Designed to be stable and robust, the lower stage of the two-stage system is balance assisted to give simple elevation whilst the upper stage provides Perfect Balance and on-shot movement. A built in pump makes counterbalance simple.

For studio use the dolly base is supplied with 12.5 cm / 5 " wheels with track locks and cable guards. The OB version has 15 cm / 6 " wheels, providing greater ground clearance.

Specification

Model No: 3983-3B OB

55 kg / 121 lbs
[max. capacity includes trim weights]

67.8 to 149.7 cm / 26.7 to 58.9 "
